Technical Skills

Programming Languages: JavaScript (ES6+), TypeScript, Python, SQL, HTML5, CSS3

Developer Tools: Git, GitHub, VS Code, Cursor, Postman, Firebase Console

Frameworks & Libraries: React, Next.js, Redux Toolkit, Tailwind CSS, Bootstrap, Material UI (MUI), Framer Motion

Technologies: REST APIs, Firebase Authentication, Firestore, WebSockets, Responsive Web Design, Linux

Experience

Tacticminds Company

April 2025 – December 2025

Front End Developer Intern

Lahore, Punjab

- **Developed and optimized responsive, pixel-perfect user interfaces** by translating UI/UX designs into clean code using **HTML5, CSS3, Bootstrap, Tailwind CSS, and Material UI (MUI)**.
- **Engineered scalable frontend components and application logic** using **JavaScript (ES6+), TypeScript, React, and Next.js**, collaborating closely with senior developers to implement clean code architecture and efficient state management.
- **Enhanced user experience (UX) and visual engagement** by integrating fluid, interactive web animations with **Framer Motion**, while utilizing Git for version control and smooth team collaboration.

Tacticminds

Jan 2026 – June 2026

Front End Developer

Lahore, Punjab

- **Collaborated within an agile development team** to architect and build the responsive user interface for a robust service and task provider marketplace application, ensuring modular component design and seamless navigation workflows.
- Worked with Google Firebase to manage user inputted data across multiple platforms including web and mobile apps.
- **Worked in close alignment with backend engineers** to analyze API architectures and database models, translating complex backend payloads into optimized client-side state management systems for efficient, secure data rendering.

Projects

Pet Adoption & Donation Platform | *JavaScript, Next.js, Firebase*

January 2025

- **Developed a full-stack web application** featuring secure donation pipelines, user authentication, and a streamlined adoption matching system.
- **Integrated an AI-driven virtual assistant** using a Small Language Model (SLM) hosted via **Ollama** to deliver instant, automated support and guidance for pet care.

WhatsApp Business SaaS Application | *JavaScript, Web Sockets, Web APIs*

May 2025

- **Built a scalable SaaS application** integrated with the WhatsApp Business API to help companies automate customer engagement, broadcasts, and marketing workflows.
- **Designed a centralized multi-tenant dashboard** that enables business owners to manage customer contacts, automate replies, and track communication metrics in real time.

Service & Task Provider Platform | *React, Next.js, TypeScript, Redux*

March 2026

- **Developed the responsive frontend architecture** for a robust service marketplace using **React and Next.js**, ensuring a seamless user experience across all devices.
- **Collaborated closely with backend engineers** to integrate complex RESTful APIs, closely analyzing data structures to optimize client-side state management.

Education

Government College University Faisalabad

Jan. 2022– June 2026

Bachelor of Science in Computer Science

Faisalabad, Punjab

University Computer Science Society

Sep. 2024 – Present

Frontend Lead & Mentor

GCUF

- Conducted hands-on mentoring sessions and workshops for 40+ junior students covering core frontend technologies including HTML, CSS, JavaScript, and React basics.
- Collaborated with a small team of student developers to build and manage landing pages for university tech events, ensuring responsive and clean layouts.
- Assisted in organizing internal speed-programming competitions and tech hackathons, managing registration workflows and event coordination.
